I. Appels à communication

CFP: The 2nd EAI International Conference on ICT Infrastructures and Services for Smart Cities. April 20–21, 2017, Brindisi, Italy. Deadline : 15.12.2016

<http://iissc.eu/2017/show/home>

The core mission of the conference is to address key topics on ICT infrastructure (technologies, models, frameworks) and services in cities, in order to enhance performance and wellbeing, to reduce costs and resource consumption, and to engage more effectively and actively with their citizens.

Potential topics of interest, which can be investigated from different perspectives (social, organizational, technological) include, but are not limited to, the following application domains:

E-health

Agriculture and Food

Smart Energy & Smart Buildings

Mobility, Transports & Logistics

Environment Management and Sustainability

E-tourism & E-culture

E-education

E-government

E-inclusion

Urban Security

Effective Experiences about smarter and sustainable cities

Significant activities empowering Smart Citizenships

Socio-Technical Systems

Societal impact of Smart City solutions

Public-private partnerships enabling Smart City Solutions

Successful projects and initiatives for Smart Cities

CFP: IJEPR 2017 CONFERENCE on URBAN e-PLANNING. Lisbon, 20 - 21 April 2017. Deadline: 15.12. 2016.

The II International Conference on Urban e-Planning organized by the 'International Journal of E-Planning Research' and by the Institute of Geography and Spatial Planning – University of Lisbon, will be held in Lisbon, Portugal, 20-21 April 2017.

With the development and widespread use of new digital tools, a whole range of new possibilities, challenges and opportunities emerged in the field of Urban and Regional Planning. We welcome proposals for papers on any aspect of the broad area of Urban e-Planning. Papers might address, but are not limited to, the following themes and topics:

Theme 1: The Governance and Planning of Smart Cities

Theme 2: Citizens e-Participation & Community Engagement

Theme 3: Collaborative Urban Planning: sharing, hactivism and social criticism

Theme 4: The inter-relatedness of real and virtual in Urban e-Planning: Big Data, GIS, IoT, Augmented Reality, and other technology trends in Urban e-Planning

Please submit an abstract, of no more than 250 words, until 15 December 2016, to: ijepr.conference@gmail.com

A selection of the papers presented at the II International Conference on 'Urban e-Planning' will be considered for publication in the 'International Journal of E-Planning Research (IJEPR)'. The selected papers will undergo the IJEPR standard double-blind peer-review process. Its publication is planned to occur at the end of 2017 or early 2018.

The 2017 Conference is an opportunity for networking. A special session, to be included in the program, is being considered. The aim is to provide a forum for the presentation of open calls for future collaboration and/or for informal contacts among members of the 'Urban E-Planning Research Network' (UEP-NET).

CFP: Conference for E-Democracy and Open Government CeDEM 2017. 17-19 May 2017. Danube University Krems, Austria. Deadline: 12.12.2016.

www.donau-uni.ac.at/cedem17

The international Conference for e-Democracy and Open Government (CeDEM) brings together e-democracy, e-participation and open government specialists working in academia, politics, government and business to critically analyze the innovations, issues, ideas and challenges in the networked societies of the digital age.

Full papers submitted are peer-reviewed in a double-blind process, and published in IEEE Proceedings. Workshop proposals, PhD colloquium papers and Reflections selected by the chairs are published in the Edition Donau-Universität Krems Proceedings.

Track: Open Data, Transparency and Open Innovation

Chairs: Anneke Zuiderwijk (TU Delft, NL), Johann Höchtl (Danube University Krems, AT),

Ramon Gil-Garcia (University at Albany, US)

Open data can provide a platform for many forms of democratic engagement: from enabling citizen scrutiny of governments, to supporting co-production of public data and services, or the emergence of innovative solutions to shared problems. This track explores the opportunities and challenges to open data production, quality assurance, supply and use across different levels of governance. Key themes include:

Open data policy and politics: opportunities and challenges for governments; the global spread of open data policy; transparency and accountability, economic innovation, drivers for open data; benefits and challenges for developing countries;

Licensing and legal issues: copyright vs. open licenses & Creative Commons; Freedom of Information and the 'right to data'; information sharing and privacy;

Open data technologies: technical frameworks for data and meta-data; mash-ups; data formats, standards and APIs; integration into backend systems; data visualisation; data quality; data end-users and intermediaries;

Open data as a valuable resource towards the European data market: Open Data and Public Sector Information as a source for Business Intelligence; Open Data, closed data and data market intermediaries; New market models, roles and responsibilities;

Open data as a social movement: How can the global trend towards open data be conceptualized as a form of collective action? How do challengers and incumbents organize and change? How is the data branch embedded in the field of open movements?

Open innovation and co-production: open data enabled models of public service provision; government as a platform; making open data innovation sustainable; data and democracy; connecting open data and crowdsourcing; data and information literacy;

Evidence and impacts: costs and benefits of providing or using open data; emerging good practices; methods for open data research; empirical data measuring open data impacts, public value generation and open data.

Track: Connected Smart City

Chairs: Carlos E. Jiménez Gómez (IEEE Computer Society e-Gov STC & estratic, US), Francisco Falcone (UPNA/IEEE STC e-GOV, ES), Gabriela Viale Pereira (Danube University Krems, AT), Jörn von Lucke (Zeppelin University, DE), Norbert Kersting (University of Münster, DE)

Track: E-Democracy and E-Participation

Track: Social Media, Public Administration and Citizen Engagement

Track: Open Collaborative Government

Track: Citizens' Participation in Democratic Governance Processes through ICT in Africa

Track: Open Access

Track: Communities, Participation and Civic Engagement

Track: Information Visualization for the People

Track: E-Voting

Track: Political Communication & Public Spheres in a Digital Age

Track: Identity, Privacy, and Security

Track: Emerging Issues in E-Democracy and Open Government

CFP : Big Data et visibilité en ligne, un enjeu pluridisciplinaire de l'économie numérique, 6-7 et 8 novembre 2017. Colloque international co-organisé par ELICO. Université des Antilles, Fort de France, Martinique. Deadline : 30.01.2017.

<http://bigdata-lecolloque.org/>

Axe1 : Applications, stockage et exploitations de données

Axe 2 : Les enjeux juridiques de la visibilité en ligne et du Big Data

Axe 3 : De la visibilité des individus et des organisations

Axe 4 : Influence, mesure d'exposition, et méthode d'évaluation de la visibilité en ligne

Les communications peuvent être proposées en français, en anglais.

CFP: 5th European Conference on Information Literacy (ECIL 2017). September 18-21, Saint-Malo, France. Deadline: 15.02.2017.

<http://ecil2017.ilconf.org>

Co-organized by the Department of Information Management of Hacettepe University, Department of Information and Communication Sciences of Zagreb University and the IUT Paris Descartes, European Conference on Information Literacy (or ECIL) will take place in Saint-Malo, France from 18-21 September 2017. ECIL is an international conference under the patronage of UNESCO and IFLA. Paul G. Zurkowski is the Honorary Chair of the Conference. Conference committees include over hundred distinguished experts from over sixty countries. The language of the Conference is English.

Aim & Scope

Workplace Information Literacy being the main theme, ECIL aims to bring together researchers, information professionals, employers, media specialists, educators, policy makers and all other related parties from around the world to exchange knowledge and experience and discuss recent developments and current challenges in both theory and practice.

Topics of the Conference include (but not limited with) the following:

- § Information literacy in the workplace
- § Information literacy and developing critical and creative workers
- § Information literacy and 21st century workplace
- § Information usage in the workplace
- § Information literacy and competitiveness
- § Information literacy and the neoliberal agenda
- § Information literacy and digital empowerment
- § Information literacy and community engagement
- § Information literacy and democracy, citizenship, active participation
- § Information literacy, libraries, the public sphere
- § Information literacy in theoretical context (models, standards, indicators)
- § Information literacy and related concepts (transversal competencies, media literacy, data literacy, civic literacy, transliteracy, metaliteracy, e-literacy, digital literacy, computer literacy, scientific literacy, visual literacy, health literacy, multi literacy)
- § Information literacy research (research strategies, methodology and methods)
- § Information seeking and information behavior
- § Information literacy good practices
- § Information literacy and emerging technologies

CFP: The GENERAL EGOV TRACK at the IFIP EGOV-EPART 2017 Conference. September 4 - 7, 2017. St. Petersburg State University of Information Technologies, Russia. Deadline : 15.02.2017.

<http://faculty.washington.edu/jscholl/ifip.working.group.8.5/website/conference/#/>

The General EGOV Track serves as an umbrella for all e-Government-related topics except the special-topics tracks of Open Government and Big Data, Policy Informatics and Policy Modeling, and Smart Governance, Smart Government, and Smart Cities. In particular, it also covers emerging and special topics in e-Government research.

II. Appels à contribution

AAC : Revue Espaces et sociétés pour un dossier thématique « Biens communs et territoires ». Date limite : 15 avril 2017. Revue qualifiante en Sociologie et Démographie.

URL : <https://calenda.org/378249>.

On observe aujourd'hui une recrudescence d'initiatives fondées sur le concept de « biens communs » dans le contexte de l'aménagement, de l'urbanisme, et du développement des territoires. L'objectif du présent appel à article est de réunir des contributions de disciplines diverses et d'apporter un éclairage sur ce concept (ré)émergent. Il s'agira de contribuer au renouvellement de la réflexion sur la fabrique des territoires et de mettre en évidence les enjeux qu'il soulève en Europe et dans le monde.

L'objectif de ce dossier est donc d'apporter un éclairage sur ce concept (ré-)émergent en contribuant au renouvellement de la réflexion sur la fabrique des territoires et en mettant en évidence les enjeux (production, mobilisation, usages, gestion, dynamique d'acteurs, etc.). Il s'agira de faire un état des lieux et des débats relatifs à l'usage du concept de « biens communs » en combinant une variété d'approches disciplinaires, des points de vue situés dans différentes parties du monde et des recherches théoriques, conceptuelles et empiriques portant sur ces « nouveaux » biens communs de l'aménagement, de l'urbanisme et du développement actuel des territoires.

AAC : numéro spécial de la Revue française de sociologie « Big data, sociétés et sciences sociales ». Deadline: 28.02.2017.

<https://mycore.core-cloud.net/public.php?service=files&t=5508b5e8a1ffd8302a02e35da6bdb0e1>

Coordination scientifique : Gilles BASTIN (Laboratoire PACTE, Sciences Po Grenoble), Paola TUBARO (Laboratoire de Recherche en Informatique, CNRS, Université de Paris-Saclay)

Les propositions de contribution (min. 1 000 mots – max. 1 500 mots, bibliographie non incluse), en français ou en anglais, devront être adressées à Christelle Germain (christelle.germain@cnrs.fr), secrétaire de rédaction, au plus tard le 28 février 2017.

III. Événements à venir.

Conférences et expositions : BIG DATA PARIS 2017. 6 - 7 mars 2017, Palais des Congrès de Paris.

<http://www.bigdataparis.com/>

Une centaine de speakers de très haut niveau, acteurs majeurs de l'écosystème Big Data en France et à l'international, institutionnels et utilisateurs interviendront lors des plénières, des nombreux retours d'expériences et des ateliers sur les perspectives, les technologies et les usages concrets du Big Data.
